Portfolio

👋 About Me

Hi, I'm Amirkhon. I'm a senior high school student and junior software engineer. I'm learning **Python, Django Framework, Algorithms and Maths**. I enjoy building projects, solving problems, and constantly challenging myself to try out something new.

🔧 Skills

- Python
- C++ basics
- Django

📁 Projects

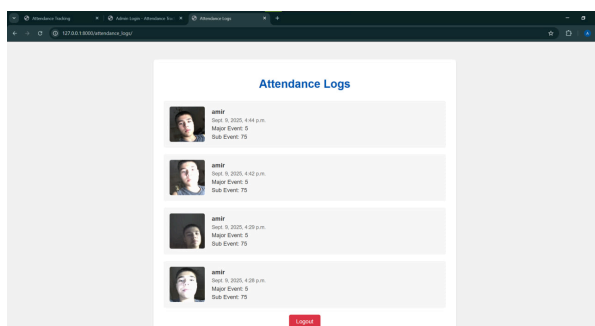

Umidly

I co-founded a startup with my friend. Umidly uses AI to replace mentors and provide affordable, yet effective and high-quality education to students.

Visit (umidly.com)

HikVision Event Listener

A full guide by me on working with ISAPI HikVision ACS Face terminals. Also, I created a demo telegram bot and demo website with open source code.
